

PAINT PROTECTION FILM MEASUREMENT LAYOUT

Instructions - Measure the sections of your frame that you want to protect & sketch roughly on the grid below. Note 1 square = 10mm of film. Next layout the measured sections so they fit on a sheet, maximum 600 x 1500 mm. Order a sheet of the measured size and upload a photo/scan of this with your order.

□ = 10mm

A large grid for drawing the measurement layout. The grid consists of small squares, each representing 10mm. The grid is approximately 60 squares wide and 150 squares high. A legend in the top left corner indicates that one square equals 10mm.
